## CLEAR VIEW FENCING SOLUTIONS

Clearview Fencing (PTY) Ltd, is a South African private company, supplying, delivering and installing clear view type fencing, to the private, corporate and industrial sectors of South-Africa.

With more than 16 years' experience in the security sector and industry, Clearview Fencing (PTY) Ltd, brings you anti-cut, anti-climb, high security fences - not just another fence.

Our clear view type fence, provides high security, with exceptional fixtures and finishes, with the option to add on additional security. It's a trend setting, high security, anti-climb fence, with an alluring appearance.

### INSTALLATIONS

From start to finish, we ensure that your ClearView fence is installed with the best workmanship and quality.

## WHY MAKE USE OF CLEARVIEW FENCING?

### Its Functional

#### Secure

The system is an anti-tamper design, with a unique fixing system, secured by cover plates pinned together.

#### Appealing

With fixtures and finishes, that is well presented and fitted, makes the fencing more appealing and easier on the eyes. Securing your property and assets, never looked this good!

#### Additional Security

Additional and extra security add-on's! From flat-wrap razor wire, to electric fence, nuts and bolts and spikes!

### It's Visual

#### Different Colours

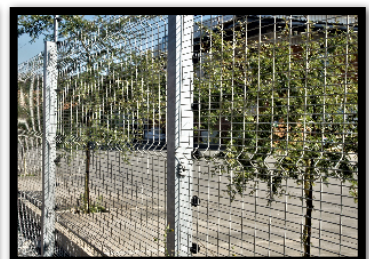

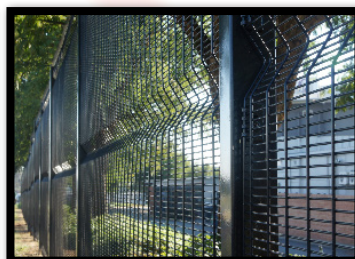

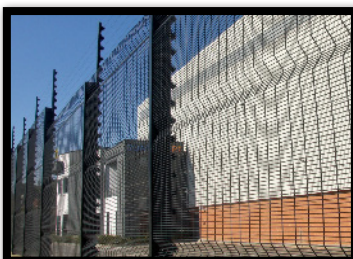

Different colour options are available, on the powder coating.

#### From Pillar to Post

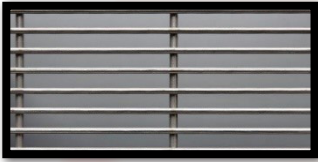

The posts are pre-punched prior to powder coating. You have a choice between I beam post or square tubing.

#### Panels

The panels have multiple V-bends and rigidity. Panels are galvanised or powder coated.

- **Surface Finish:** Galvanized and Powder Coated or PVC Coated

### ADDITIONAL SECURITY

#### Anti-Tamper Screws

Anti-Tamper Screws does what it says. It prevents anyone to tamper with and try to disassemble the fence.

#### Nuts & Bolts

Shear Off Nuts & Bolts protects your fence from anyone who would seek to undo the mesh material.

#### Spikes

Spikes sits on top of your fence, preventing anyone wanting to climb over.

#### Electric Fence

For extra peace of mind and added security, our electric fence add-on provides just that - extra security.

#### Flatwrap Razor Wire

FRW, provides a higher fence and a more economical, less expensive measure to secure your premises.
